APPLICATION

Thank you for being candid in answering our questions. This helps us have a better understanding of your dog.

Our main goal is to provide you with a convenient safe haven for your dog. Fun, exercise, and learning opportunities will give you a relaxed dog once home at the end of the day.

If we at anytime have concerns regarding behaviour or health, we will either contact you directly or provide a written report card at the end of the day.

If you have any questions, comments, or suggestions, please call or email. We will get back to you in a timely fashion.

Warmest regards,

Deborah Sanders

NOTES:

DOG'S HEALTH

Does your dog take medications? YES NO

If yes, what for, what RX, and how often?

Does your dog have any past injuries or any current conditions?

YES NO If yes, please explain.

PARASITE CONTROL

All dogs are required to be on an effective parasite (flea, worm, etc.) control program - either monthly or seasonally. Some preventives are best for controlling the overall populations by inhibiting reproduction but not the bite. Others kill the parasite on contact with the dog's skin. K9HQ prefers the latter as some dogs develop allergic reactions to the fleabite. It is suggested that you discuss with your veterinarian which product is the most suitable for your dog considering their health and attendance at doggy daycare.

Do you use the product... MONTHLY SEASONALLY May1- Oct31

Please tell us which parasite preventative control do you use?
